FIRST QUARTER 2023 CONFERENCE CALL

Chairman & CEO:

Paul Andre Huet

**Managing Director,
Australia:**

Leigh Junk

**Executive Vice President,
Corporate Development:**

Oliver Turner

DISCLAIMER

CAUTIONARY STATEMENT CONCERNING FORWARD-LOOKING STATEMENTS

This presentation contains "forward-looking information" including without limitation statements relating to the liquidity and capital resources of Karora, production guidance, full year consolidated 2023 and 2024 production guidance and the potential of the Beta Hunt Mine, Higginsville Gold Operation, the Aquarius Project, the Spargos Gold Project, the Lakewood Mill, and the completion of the second Beta Hunt decline system.

Forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of Karora to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Factors that could affect the outcome include, among others: future prices and the supply of metals; the results of drilling; inability to raise the money necessary to incur the expenditures required to retain and advance the properties; environmental liabilities (known and unknown); general business, economic, competitive, political and social uncertainties; results of exploration programs; accidents, labour disputes and other risks of the mining industry; political instability, terrorism, insurrection or war; or delays in obtaining governmental approvals, projected cash operating costs, failure to obtain regulatory or shareholder approvals. For a more detailed discussion of such risks and other factors that could cause actual results to differ materially from those expressed or implied by such forward-looking statements, refer to Karora's filings with Canadian securities regulators, including the most recent Annual Information Form, available on SEDAR at www.sedar.com.

Although Karora has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors that cause actions, events or results to differ from those anticipated, estimated or intended. Forward-looking statements contained herein are made as of the date of this news release and Karora disclaims any obligation to update any forward-looking statements, whether as a result of new information, future events or results or otherwise, except as required by applicable securities laws.

NON-IFRS MEASURES

Certain non-IFRS measures are included in this Presentation, including Working Capital, Adjusted EBITDA, Adjusted Earnings and AISC. The non-IFRS measure should not be considered in isolation or as a substitute for measures of performance prepared in accordance with IFRS. The non-IFRS measures do not have any standardized meaning prescribed under IFRS, and therefore may not be comparable to other issuers. A definition and reconciliation of these measures is included in the Non-IFRS Measures section of Karora's news release dated May 15, 2023.

CAUTIONARY NOTE

CAUTIONARY NOTES – PRODUCTION, COST AND CAPITAL GUIDANCE (2023 – 2024)

- (1) 2023 and 2024 guidance was announced in June 2021 (see Karora news release June 28, 2021), and updated on March 23, 2023. This production guidance through 2024 is based on the September 2022 Mineral Reserves and Mineral Resources announced on February 13, 2023.
- (2) The Company expects to fund the capital investment amounts listed above with cash on hand and cashflow from operations.
- (3) The material assumptions associated with the expansion of Beta Hunt mining production rate to 2.0 Mtpa during 2024 include the addition of a second ramp decline system driven parallel to the ore body, ventilation and other infrastructure that is required to support these areas, and an expanded trucking fleet.
- (4) The Company's guidance assumes targeted mining rates and costs, availability of personnel, contractors, equipment and supplies, the receipt on a timely basis of required permits and licenses, cash availability for capital investments from cash balances, cash flow from operations, or from a third-party debt financing source on terms acceptable to the Company, no significant events which impact operations, such as COVID-19, nickel price of US\$22,000 per tonne, as well as an A\$ to US\$ exchange rate of 0.70 in 2023 and 2024 and A\$ to C\$ exchange rate of 0.90. Assumptions used for the purposes of guidance may prove to be incorrect and actual results may differ from those anticipated. See below "Cautionary Statement Concerning Forward-Looking Statements".
- (5) Exploration expenditures include capital expenditures related to infill drilling for Mineral Resource conversion, capital expenditures for extension drilling outside of existing Mineral Resources and expensed exploration. Exploration expenditures also includes capital expenditures for the development of exploration drifts.
- (6) Capital expenditures exclude capitalized depreciation.
- (7) AISC guidance includes Australian general and administrative costs and excludes share-based payment expense.
- (8) See "Non-IFRS Measures" set out at the end of this news release and Karora's MD&A for the three and twelve months ended December 31, 2022.

HIGHLIGHTS

- Record quarterly production of 39,827 gold ounces
- Significant increases In Beta Hunt gold Mineral Resources gold Mineral Reserves and nickel Measured and Indicated Resources
- Completed Beta Hunt second decline ahead of schedule and on budget
- Continued exploration success at Beta Hunt with extensions of Western Flanks mineralization at depth and major extension to Fletcher Zone
- Subsequent to the end the first quarter:
 - Strengthened management team through the appointment of Leigh Junk as Managing Director, Australia
 - Agreement to unlock HGO lithium exploration potential

PRODUCTION, COST AND CAPITAL GUIDANCE (2023 – 2024)

Production & Costs		2023	2024
Gold Production	Koz	145 - 160	170 – 195
All-in sustaining costs	US\$/oz	1,100 – 1,250	1,050 – 1,200
Payable Nickel Production	Tonnes	450 - 550	600 - 800
Capital Investments			
Sustaining Capital	A\$ (M)	10 - 15	15 - 20
Growth Capital	A\$ (M)	57 - 68	63 – 73
Exploration & Resource Development	A\$ (M)	18 - 22	20 - 25

2. See caution on slide 4

Q1 2023 REVIEW

Q1 Operating Highlights:

- Gold production of 39,827 oz
- Gold sales of 36,145 oz
- Cash operating costs of US\$1,124/oz
- AISC¹ of US\$1,213/oz sold

Q1 Financial Highlights:

- Revenue: \$96.8 million
- Net loss: \$2.9 million (\$0.02/sh)
- Adjusted earnings¹: \$4.8 million (\$0.03/sh)
- Adjusted EBITDA¹: \$28.6 million (\$0.16/sh)
- Cash flow from operating activities \$20.9 million

Financial Position (millions of dollars)

For the periods ended	March 31, 2023	December 31, 2022
Cash and cash equivalents	\$65.9	\$68.8
Working capital surplus (deficit) ²	43.9	38.0
PP&E & MPI	427.1	427.0
Total assets	551.5	557.1
Total liabilities	205.2	208.5
Shareholder's equity	\$346.4	\$348.6

1. All-in Sustaining Costs (AISC), Earnings before interest, taxes, depreciation and amortization ("EBITDA") and adjusted earnings are non-IFRS measures. A definition and reconciliation of these measures is included in the Non-IFRS Measures section of Karora's news release dated May 15, 2023.
2. Working capital surplus (deficit) is a measure of current assets (including cash and cash equivalents) less current liabilities.
3. Financial liabilities include long-term debt and lease obligations.

FIRST QUARTER 2023 CONFERENCE CALL

Chairman & CEO:

Paul Andre Huet

**Managing Director,
Australia:**

Leigh Junk

**Executive Vice President,
Corporate Development:**

Oliver Turner

CONSOLIDATED OPERATIONAL HIGHLIGHTS

○ Q1 2023 consolidated production:

- Gold produced 39,827oz
- 502 kt milled @ 2.62 g/t
- Recoveries: 94%
- Cash operating costs: US\$1,124/oz sold

Beta Hunt Mine

OPERATIONAL HIGHLIGHTS – BETA HUNT

- **Q1 2023 Beta Hunt:**
 - Gold produced – 26,577 oz
 - 298 kt milled @ 2.92 g/t
 - Cash operating costs:
US\$967/oz sold
- **Second decline construction completed ahead of schedule and on budget in Q1 2023**
- **Positive gold Mineral Resource and Mineral Reserve updates and nickel Mineral Resource update**

Beta Hunt Vent Raise and Second Decline

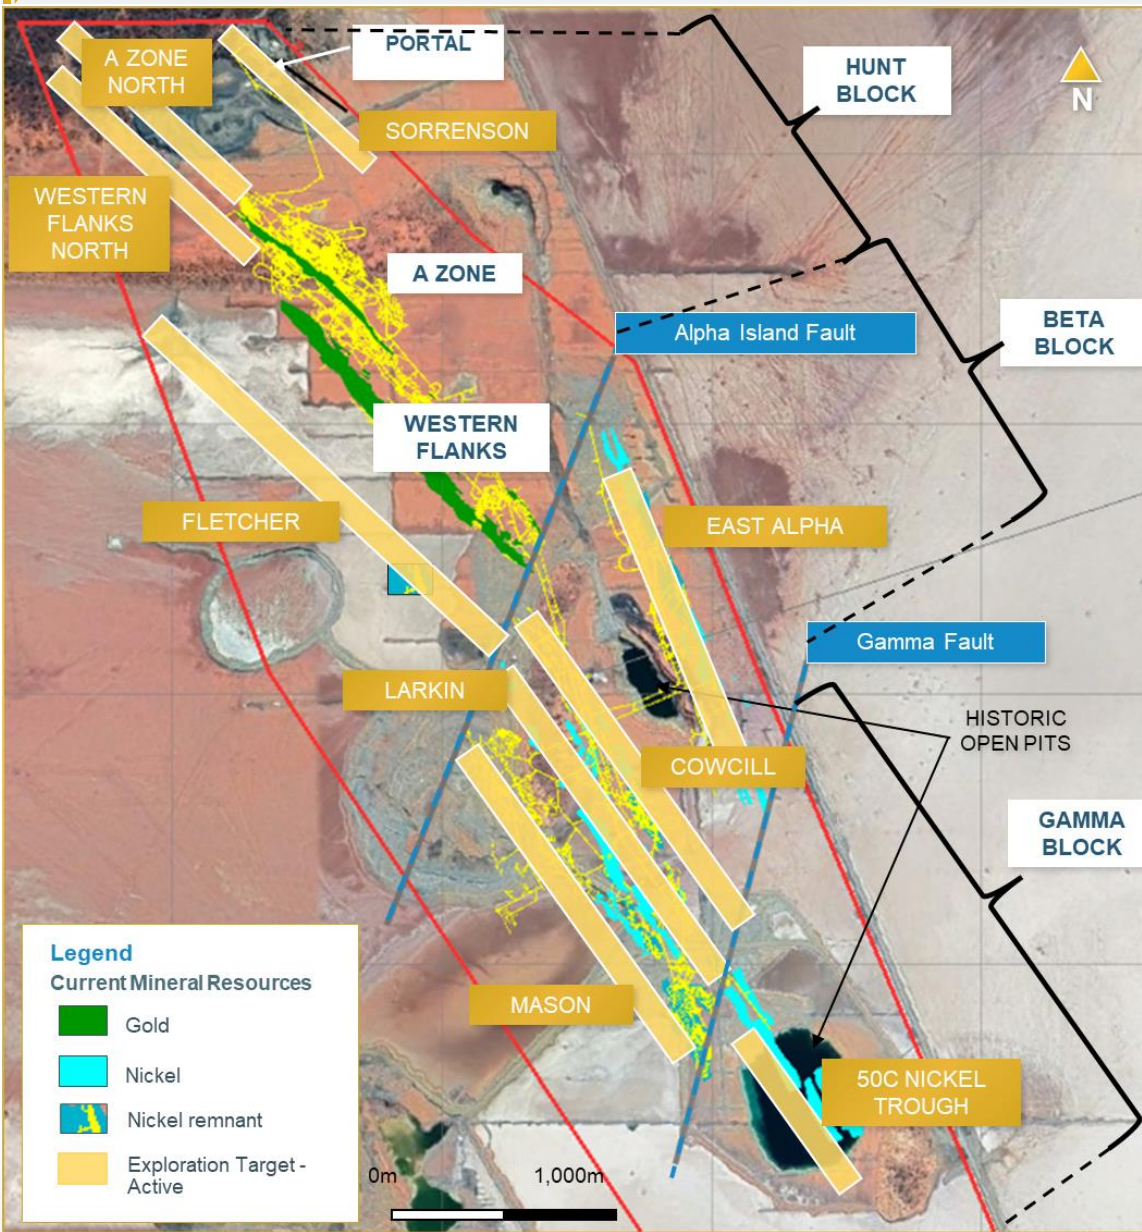

OPERATIONAL HIGHLIGHTS – HGO

- **Q1 2023 HGO mines production:**
 - Gold produced 13,250 oz
 - 204 kt milled @ 2.18 g/t
 - Cash operating costs: US\$1,402 /oz sold
- **The Spargos open pit was completed in late 2022 with planning underway for an underground operation potentially beginning in 2024**
- **Open pit production from Mousehollow and Pioneer and underground production from Aquarius scheduled over the balance of 2023**

HGO Processing Plant

BETA HUNT EXPLORATION UPDATE

Mineral Resource Growth Potential

Eight active exploration targets

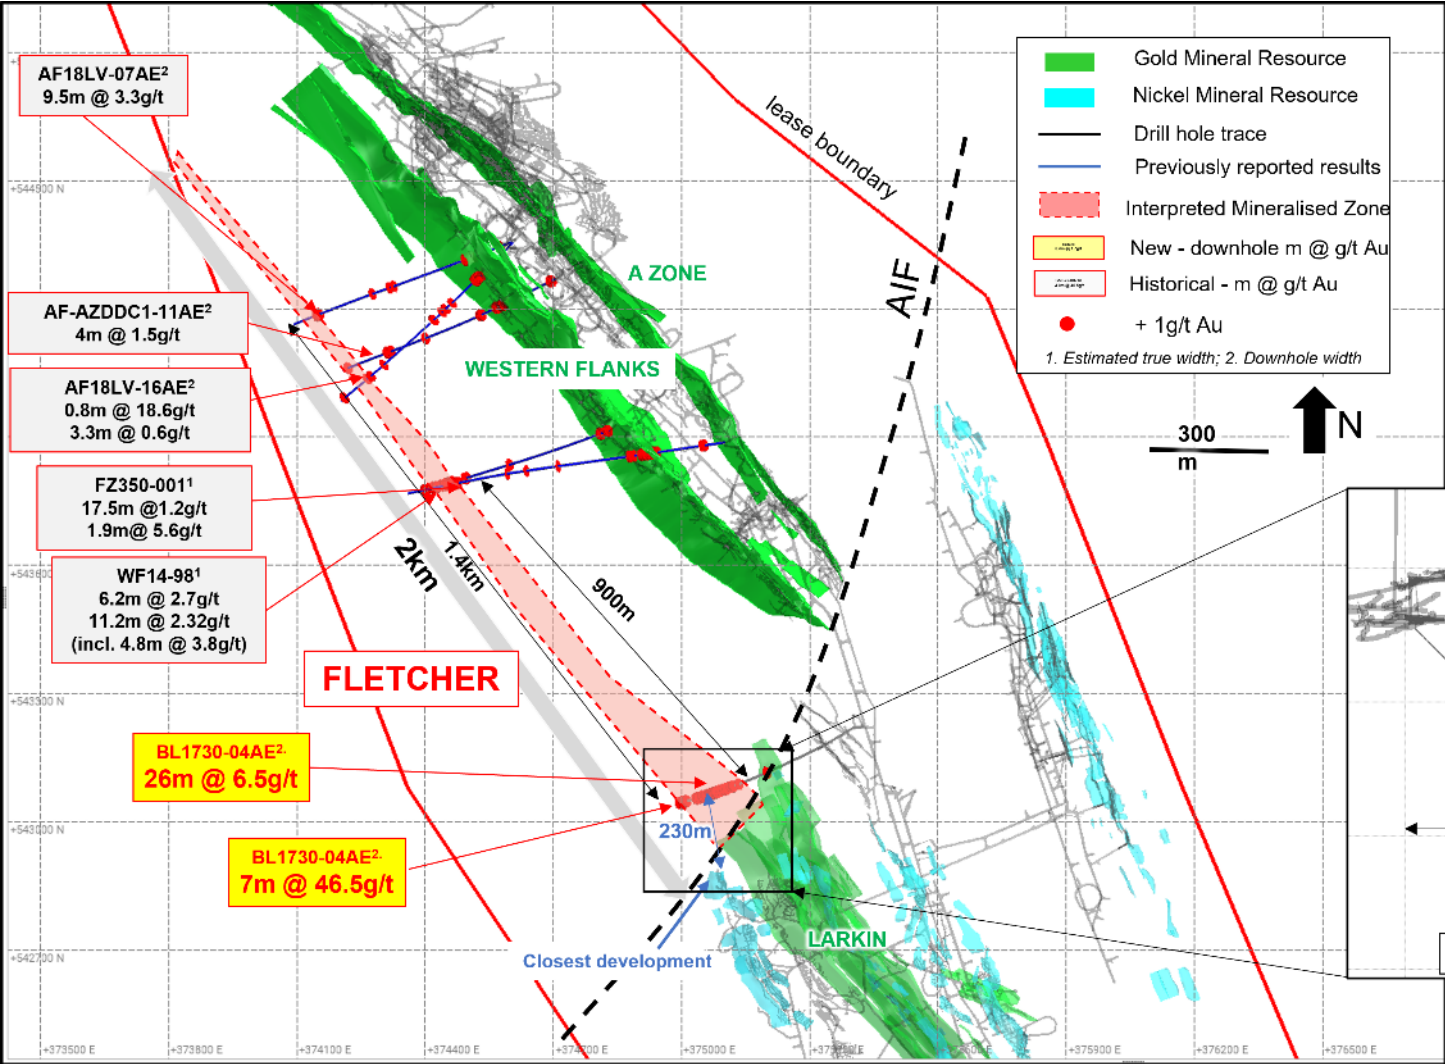

- Western Flanks Deeps
- A Zone North
- A Zone Deeps
- Larkin Extensions
- Cowcill
- Mason
- Fletcher
- Sorrenson

Three active nickel exploration targets

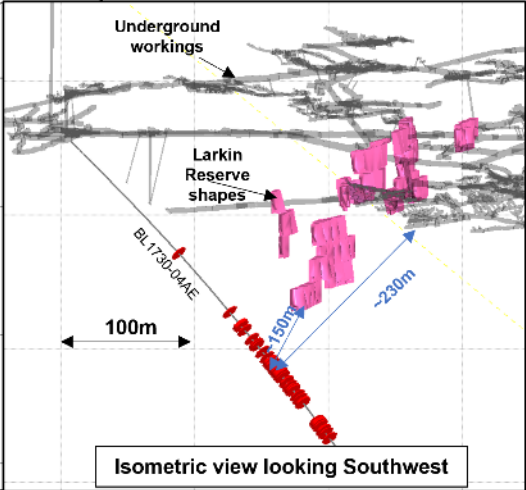

- Hunt (4C Offset and 40C)
- Beta (30C, 90C and East Alpha)
- Gamma (50C and 10C)

BETA HUNT EXPLORATION UPDATE

Fletcher Zone mineralized strike length potential extended to 1.4 km

- Structural analogue to Western Flanks, Beta Hunt's largest and most prolific gold zone
- Recent exploration results:
 - BL1730-04AE: 6.5 g/t over 26.0 m
 - BL1730-04AE: 46.5 g/t over 7.0 m

LITHIUM EXPLORATION POTENTIAL

Agreement with Kalamazoo Resources to Unlock Value Through Creation of Kali Metals

- Karora and Kalamazoo Resources Limited (ASX: KZR) will vend their lithium exploration projects into Kali Metals Limited, a new jointly owned but separately run lithium-focused ASX listed company
- Karora shareholders to participate in the significantly enhanced upside potential of a large lithium-focused investment vehicle that will fund its own activities
- Extensive exploration portfolio adjacent to world-class lithium mines and deposits in the Higginsville (1,607km²) and Pilbara (199km²) WA, and prospective lithium exploration projects in the Lachlan Fold Belt (2,027km²) in NSW and VIC
- Kali to raise a minimum of A\$10 million, up to a maximum of A\$12 million at IPO
- Kalamazoo to own 55% of Kali, with Karora owning the remaining 45% (prior to the proposed capital raise)
- Kali will be led by Managing Director Graeme Sloan and Non-Executive Chairman Luke Reinehr, both bringing significant understanding of the Kali lithium tenements as well as strong track records of value creation in Australia's mining sector
